Weekly Newsletter for: Let's Do More for Santa Rosalia, a Non-Profit Foundation

Tu decides hasta donde quieres llegar

Fundraising

We are a Non-Profit Foundation dependent primarily on donations made to us by local businesses and our winning projects; however, the governing tax law does allow us to generate some income to ensure our existence, provided that this income does not exceed 10% of our donations.

Dogs are considered a preventative medicine. Caring and showing affection towards them promotes a healthier and prolong life. Numerous studies have shown that simply petting a pet can decrease blood pressure on-top of producing very relaxing effects in the body, no doubt, they are a true antidote to stress and an inexhaustible source of love and companionship.

Educate for Life Program

One of the objectives of the Education for Life Program has been to reinforce the values needed to live in society in harmony. It is for this reason that some of the activities have been teaching kids the importance of respect and getting along by promoting participation among them.

Catrina Skeleton Contest

A group of teachers, scholarship recipients' and students from the Education for Life Program are helping in the creation of metal *Catrina* skeleton structures to compete in the 1st *Catrina* Skeleton Contest made from recycled material, children from all Santa Rosalia elementary schools are participating. This contest also helps preserve our Mexican traditions.

Did you know?

The decision to spay/neuter your pet is an act of responsibility towards him, doing so can prevent potential health problems (e.g. emotional, physical and hormonal). Spaying / neutering is the best option to ensure birth control in dogs & cats and avoid uncontrollably unwanted births / puppies. By spaying/neutering we can prevent euthanasia and the abandonment of thousands of stray pets each year.

If you are interested in collaborating in the reduction of stray dogs and cats spay your pet
Contact us: 615 152-1378
Remember, stray dogs and cats are our responsibility as well as spaying/ neutering our own pets .

Friends of the Non-Profit Foundation

On Saturday October 25, the Reading Club of Santa Rosalia held their third night of reading, the event was carried-out very pleasantly in a friendly and intimate atmosphere where keynote speaker Pablo Suarez gave a speech, the writer Adolfo Morales Moncada presented his new book entitled "Apalábrate" plus, other books were presented written by members of the book club.

Helping the Prison Carpentry Wood Shop

One of our Foundation objectives is to support social rehabilitation; for that reason, we managed to established links with the local State Prison CERESO and provide tools for their Carpentry wood shops.

Donation of Benches

The Education for Life Program has continued to managed the donation of recycled wood benches to local schools, this time to *Francia* Preschool; beches were built by Rustic Baja.
